

High Intensity Magnetic Solutions for the Pharmaceutical Industry

Magnetic Separation & Detection

Our Magnetic Separators and Metal Detectors can be installed throughout the process plant and can be used as critical control points within your HACCP quality system.

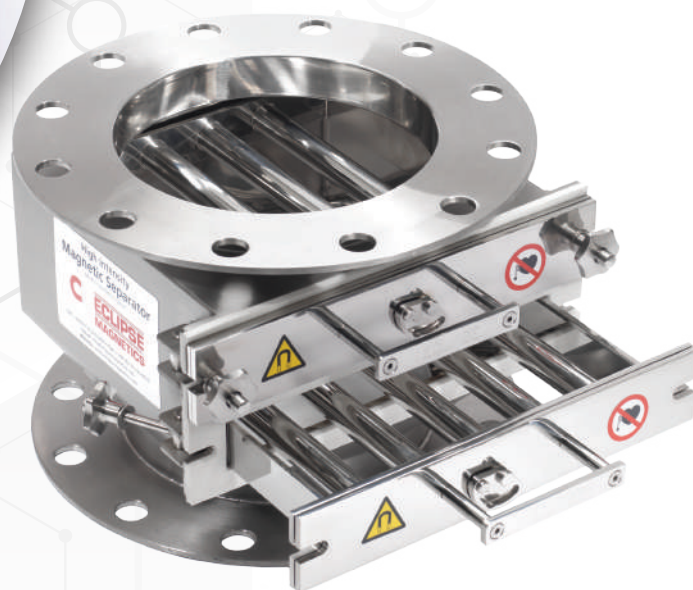

Our systems can be installed in multiple locations such as:

- Silo intakes
- Bulk bag discharge stations
- Gravity chutes
- Lean phase/dilute phase conveying lines
- Pumped liquid lines
- Pre & post critical machinery or process steps

Magnetic Separators in the Pharmaceutical Industry

Protect brand reputation and product quality

Meeting the demanding standards of the pharmaceuticals industry

Our magnetic separators and metal detectors meet the high standards demanded by the pharmaceuticals industry. This includes product quality, performance and guaranteed reliability. Our products can be used with powders, granulates, liquids and pastes, throughout the process plant.

We offer a range of products and services to the pharmaceutical industries:

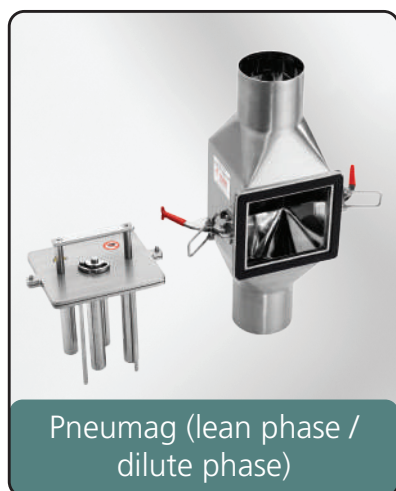

- ✓ High magnetic performance – up to 12,000 Gauss on product contact surface
- ✓ Remove sub-micron mild steel and paramagnetic metal contamination
- ✓ Internal surface finish 0.6um Ra
- ✓ ATEX compliant
- ✓ FDA compliant seals & gaskets
- ✓ Full certification & validation pack

Liquid Filters

Housed Easy Clean Grid Magnets (gravity)

Pneumag (lean phase / dilute phase)

Auto Clean Systems (gravity)
